FOOD SAFETY LAWS IN KENYA

I refer to your later dated 5th May 2020 and hereby indicate our concurrence with your proposal to support us in drafting our food safety laws.

Our visit to the United States and the exposure to the various Food Safety Agencies served to highlight the importance of strengthening our own system while separating roles and functions between the various lead agencies. We appreciated the complexities of the legal regime and the multiplicity of competencies requires to run an effective food safety system.

This is therefore to thank you for the support and we look forward to a quick process that will see Kenya align its Food Safety to International best practice
